ssmith@chaoticcrafts.com

If you want anything on the list.

Hard drives have all passed a single pass test from the manufacturers diagnostics, or in case of the SCSI drives, have been formatted using the Adaptec SCSI utilities.

RAM has all passed a single pass using a Linux boot disk with MemTest86.

Power supplies have all successfully booted a PC.

All other parts are "As-Is" and are expected to work as they were all "Working Pulls" or my test parts.

No drivers, utilities, disks, cables, or manuals are provided unless explicitly noted.

CPUs

Qty	Make	Model	Speed (MHz)	Interface	Model	Package	Price Each	Total
1	Intel	Celeron	333	Slot 1	SL2WN		\$1.67	\$1.67
